Subject:	"New site" should generate TS-object-template folder by default		
Description			
After creating a new site (e.g. ABC.Xyz) with Neos GUI backend there is no folder			
/TYPO3-Neos/Packages/Sites/Abc.Xyz/Resources/Private/Templates/*TypoScriptObjects*			
As this is a common necessity for TS-object-templates, Neos itself should generate this folder by default.
