<b>Subject:</b>	Bad link for create site button in administration overview		
<b>Description</b>			
<p>In the Administration overview (e.g. <a href="http://neos.demo/neos/administration">http://neos.demo/neos/administration</a>), in the "Sites management" box, the blue button labelled "Create site" produces a 404. It does so because it links to "administration/sites/newSite", while the correct path probably is "administration/sites/newsite". (camelCase in the word "newSite", while lowercase seems to be expected).</p>
