Core - Bug # 54913

Status:	Closed	**Priority:**	Should have
Author:	Robert Wildling	**Category:**	TypoScript
Created:	2014-01-11	**Assigned To:**	
Updated:	2014-01-12	**Due date:**	
TYPO3 Version:	6.1		
PHP Version:	5.5		
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	Sorting of media elements in page->resources not reflected after re-ordering		

Description

Setup:
MAMP 2 Pro | php 5.5.3 | TYPO3 CMS 6.2.0beta3 (but also in 6.1) | APC

Scenario:
I added 2 image files in the media field if the first page.
This TypoScript reads the files to 2 different div-containers (listNum is 0, then 1):

1. get the images

```
lib.IMAGE_01 = IMG_RESOURCE
lib.IMAGE_01 {
  stdWrap.wrap = <img src="|" />
  file {
   import.data = levelmedia: -1, slide
   import.listNum = 0
   treatIdAsReference = 1
  }
}
lib.IMAGE_02 < lib.IMAGE_01
lib.IMAGE_02.file.import.listNum = 1
```

1. Fluid Templates

```
FluidTemplate = FLUIDTEMPLATE
FluidTemplate {
  file = fileadmin/FluidTemplate/Private/index.html
  layoutRootPath = fileadmin/FluidTemplate/Private/Layouts/
  layoutPartialsPath = fileadmin/FluidTemplate/Private/Partials/
  variables {
   IMAGE_01 < lib.IMAGE_01
   IMAGE_02 < lib.IMAGE_02
  }
}
```

Initially, everything works fine. But when the 2 image files a re-ordered (the first one becomes the second and vice verca), then - after saving and clearing all caches - the new ordering is ignored in the front end.

Thank you for your efforts!

Best regards, Robert
