[BUGFIX] Indexer tries to insert NULL into DB

The Indexer of indexed_search tries to insert NULL values into NOT NULL columns of the database.

Since #53662 NULL values are passed to the database, hence these insert statements now fail.

Resolves: #54917

Releases: 6.2

Just as a note, because it took me a while to find this bug report and the solution:

In Typo3 6.1.8, my indexed_search did not show pages where the searched word was part of the title of the page.

I finally found that if I apply this change that fixes this bug, my problem is solved as well.

(I got here by comparing 6.1.8 and 6.1.9, where this bug has been fixed already)
