TYPO3.Fluid - Bug # 55008

Status:	Under Review	**Priority:**	Should have
Author:	Christian Müller	**Category:**	
Created:	2014-01-15	**Assigned To:**	Christian Müller
Updated:	2014-01-15	**Due date:**	
Has patch:	No		
Affected Flow version:	(any)		
Subject:	Interceptors should be used in Partials		

Description

Currently Interceptors don't work on Partials because they are not initialized there. Can easily be tested by creating a Template that uses the Resource Interceptor (so using a relative path like ../../Public/Images/Foo.jpg) and then (after checking that the Interceptor converts that into a full resource path) moving that into a partial. There the Interceptor is no longer executed and you get the relative path that is then wrong.

History

#1 - 2014-01-15 08:44 - Gerrit Code Review

- Status changed from Accepted to Under Review

Patch set 1 for branch **master** of project **Packages/TYPO3.Fluid** has been pushed to the review server.

It is available at https://review.typo3.org/26828
