Subject:	Speedup selection of storage		
Description	<p>the file storgae is selected by SELECT * FROM sys_file_storage WHERE driver = 'S' AND sys_file_storage.deleted=N AND sys_file_storage.hidden=N AND sys_file_storage.deleted=N</p> <p>Since there is no index on driver the query is executed without the query cache.</p> <p>Solution add index in driver since there is already an index on hidden and deleted</p>
