

## TYPO3 Flow Base Distribution - Task # 55189

<b>Status:</b>	Closed	<b>Priority:</b>	Should have						
<b>Author:</b>	Oliver Hader	<b>Category:</b>							
<b>Created:</b>	2014-01-20	<b>Assigned To:</b>	Bastian Waidelich						
<b>Updated:</b>	2014-12-20	<b>Due date:</b>							
<b>Subject:</b>	Extract forward handling from errorAction								
<b>Description</b>	<p><i>basically taken from Extbase tracker, see #55178 and please let me know whether this might be considered for TYPO3 Flow</i></p> <p>The default ActionController::errorAction uses the forward method to get back to the referring request. If a custom and different redirect shall happen here, one has to clone the whole errorAction method. Extracting the handling simplifies customization at this state.</p>

### History

#### #1 - 2014-12-20 13:20 - Bastian Waidelich

- Status changed from New to Closed
- Assigned To set to Bastian Waidelich
- Remaining (hours) set to 0.0

If I'm not mistaken this is a duplicate of #54618 which has been resolved in TYPO3 Flow 2.3 (please comment or re-open if I'm wrong)
