TYPO3.Neos - Bug # 55335

Status:	New	**Priority:**	Must have
Author:	Philipp Maier	**Category:**	
Created:	2014-01-25	**Assigned To:**	
Updated:	2014-01-25	**Due date:**	
Subject:	Auto creating child nodes can fail due to missing NULL check		

Description

The command *autoCreateChildNodes* of the *NodeCommandController* produces a fatal error when the node created by the nodeFactory is NULL.
PHP Fatal error: Call to a member function createNode() on a non-object in
/Data/Temporary/Development/Cache/Code/Flow_Object_Classes/TYPO3_Neos_Command_NodeCommandController.php on line
97
Background: The return type of the nodeFactory for this method can be NULL.

@Christian: This seems to be correlated to this node type being NULL thingy we talked quite a while ago.
