[BUGFIX] Ajax handler TYPO3\_tcefile::process is broken

Several changes in core broke the ajax upload handler response.  
There is no error response and it tries to json\_encode complete  
File objects.

This changes reverts some of the "cleanup" changes fixes the  
response and makes sure only the error message from current  
request are used.

Resolves: #55371

Releases: 6.2, 6.1
