

## TYPO3.Neos - Bug # 55501

<b>Status:</b>	Closed	<b>Priority:</b>	Should have
<b>Author:</b>	Dominic Garms	<b>Category:</b>	TypoScript
<b>Created:</b>	2014-01-31	<b>Assigned To:</b>	Bastian Waidelich
<b>Updated:</b>	2014-01-31	<b>Due date:</b>	
<b>Subject:</b>	presetName of prototype(TYPO3.Neos.NodeTypes:Form) is not overwritable		
<b>Description</b>			
<p>Hello,</p> <p>I try to follow the DemoSite package and the docs for overwriting the presetName for customisation of a contact form. It does not matter on which position I try to overwrite the "default" preset, the TYPO3.Neos.NodeTypes package overwrites my custom preset with its value.</p> <p>Here the link to my application: <a href="https://github.com/dohomi/Neos-Plugin-DMF.BootstrapContent">https://github.com/dohomi/Neos-Plugin-DMF.BootstrapContent</a></p> <p>It is currently just a similar copy of the DemoSite for testing but it shows, that the preset remains "default". I checked already the order of PackageState and also the yaml ordering is correct. Only the ordering of TypoScript seems to get wrong.</p> <p>Thanks for reviewing this,</p> <p>Dominic</p>			

### History

#### #1 - 2014-01-31 12:43 - Dominic Garms

This issue belongs to copy-paste error of autoincluded TS:

```
Neos:
  typoScript:
    autoInclude:
      'DMF.BootstrapContent': TRUE
```

Now everything work as expected. Please ignore this issue.

#### #2 - 2014-01-31 12:48 - Bastian Waidelich

- Category set to TypoScript
- Status changed from New to Closed
- Assigned To set to Bastian Waidelich

Thanks for the feedback ;)
