Revision 69408211 - 2014-02-24 21:15 - Anja Leichsenring

[TASK] Switch info and func module to mod dispatcher

BE modules info and func now uses mod.php.

Changing the entry script for func and info module
will cause integrated submodules to fail in
case they use the old entry point index.php
with a relative path somewhere in funcMenu or in
other links or actions.

A compatibility layer is introduced in
typo3/index.php to catch those old
links and redirect to mod.php with proper parameters.
