<b>TYPO3 Version:</b>	6.2		
<b>PHP Version:</b>			
<b>Complexity:</b>			
<b>Is Regression:</b>	Yes		
<b>Sprint Focus:</b>			
<b>Subject:</b>	Different behavior of levelmedia in TYPO3 6.2		

### Description

I think levelmedia is behaving "strangely" (i.e. different compared to older versions) in TYPO3 6.2beta5. I've tested it with 3 installations.

The TypoScript

```
lib.getPageRessource = TEXT
lib.getPageRessource {
    data = levelmedia:-1, slide
}
<pre>
```

returns the following values:

- \* TYPO3 4.7: filename.jpg (i.e. filename)
- \* TYPO3 6.1: 63 (i.e. uid of file reference)
- \* TYPO3 6.2beta5: 35,34,33,22,18,17,16,15,14,10,9,7,12,11,8 (i.e. uids of all file references)

IMHO levelmedia should still return one uid which "fits the rootline".

## History

---

### #1 - 2014-02-07 13:55 - Simon Würstle

Same probleme here with 6.2beta5. It behaves normal with beta4.

### #2 - 2014-02-10 10:25 - Ernesto Baschny

- *Category set to Content Rendering*
- *Status changed from New to Accepted*
- *Priority changed from Should have to Must have*
- *Target version set to 6.2.0*
- *Is Regression changed from No to Yes*

Problem is reproduceable. Bug introduced in #54265 "(int) to intval)" optimization. Hope that's the last problem found with that big change. :(

### #3 - 2014-02-12 13:07 - Gerrit Code Review

- *Status changed from Accepted to Under Review*

Patch set 1 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server.

It is available at <https://review.typo3.org/27573>

### #4 - 2014-02-12 13:17 - Gerrit Code Review

Patch set 2 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server.

It is available at <https://review.typo3.org/27573>

### #5 - 2014-02-12 13:43 - Stefan Neufeind

Patch is currently under review. Of course you are right this change was not intended.

□

Just to have this complete: You mentioned that you now get IDs instead of a filename. Since FAL and file-releations you now need to add "treatIdAsReference = 1" to get the filename again.

### #6 - 2014-02-12 14:30 - Michiel Roos

- *Status changed from Under Review to Resolved*
- *% Done changed from 0 to 100*

Applied in changeset commit:cb0a33aaa98b00287516275dc8eea047f628d53b.

**#7 - 2014-02-16 18:39 - Bjoern Jacob**

@Stefan: That's right. Since there's the new FILES cObject I prefer using it instead of the "old" IMAGES cObject. For the last one we need the treatIdAsReference switch. Thx for clarification.

**#8 - 2014-04-04 08:51 - Sebastian Schmal**

here a german instructions:
