### History

#### #1 - 2014-02-10 13:26 - Francois Suter

- Project changed from Documentation to TYPO3.Flow
- Category deleted (Documentation on typo3.org)

The Flow documentation is managed inside the Flow package itself, so I'm moving this issue there.

If at all, I think this belongs to either [http://forge.typo3.org/projects/book\\_extbase\\_fluid](http://forge.typo3.org/projects/book_extbase_fluid) or <http://forge.typo3.org/projects/typo3cms-doc-extbase>, as the documentation linked is for TYPO3 Flow Base Distribution and is correct there.

#### #3 - 2014-03-05 10:51 - Adrian Förder

- Status changed from New to Closed
- Has patch set to No
- Affected Flow version set to Git master

closing this as it's totally correct the way it is: you were looking at <http://docs.typo3.org/flow/TYPO3FlowDocumentation/>..., hence for Flow, the class name is correct.
