<b>Updated:</b>	2014-10-01	<b>Due date:</b>	
<b>Subject:</b>	Switch between Editor and Admin does not load any admin options		
<b>Description</b>			
Reproduce like this:			
<ol style="list-style-type: none"><li>1. Login with Editor account</li><li>2. Logout</li><li>3. Login as Admin</li></ol>			
I would expect to see my Admin options but they dont appear. The screenshot shows the options after 3.			
Also works in other direction:			
<ol style="list-style-type: none"><li>1. Login as Admin</li><li>2. Logout</li><li>3. Login as Editor</li></ol>			
Result: You have Admin options in your panel
