Sprint:	
PHP Version:	
Has patch:	No
Complexity:	
Subject:	RFC: Use PHP 5.4 closure features for direct ObjectAccess

Description

We can get rid of PropertyReflection in ObjectAccess with a PHP 5.4 feature of binding closures to object instances.

See this article: http://ocramius.github.io/blog/accessing-private-php-class-members-without-reflection/

A general decision would be needed if we drop support of PHP 5.3 with the next Flow release.
