<b>Subject:</b>	ResourceCompressor: concatenateCss with forceOnTop gives wrong order		
<b>Description</b>			
<p>While testing #53116 (about concatenateJs and forceOnTop) I also checked if that part works fine for CSS. The forceOnTop works if you don't concatenate them:</p>			
<pre>page &gt;  config.concatenateCss = 0 page = PAGE page {   includeCSS {     b = fileadmin/b.css     b {       forceOnTop = 0     }     c = fileadmin/c.css     c {       forceOnTop = 1     }     a = fileadmin/a.css     a {       forceOnTop = 1     }   } }</pre>			
<p>gives:</p>			
<pre>&lt;link rel="stylesheet" type="text/css" href="fileadmin/a.css?1392566437" media="all"&gt; &lt;link rel="stylesheet" type="text/css" href="fileadmin/c.css?1392566430" media="all"&gt;  &lt;link rel="stylesheet" type="text/css" href="typo3temp/stylesheet_993134cfc3.css?1385132976" media="all"&gt; &lt;link rel="stylesheet" type="text/css" href="fileadmin/b.css?1392566433" media="all"&gt;</pre>			
<p>(okay, we might look if we can get rid of that newline in the middle)</p>			
<p>But with config.concatenateCss = 1 the order is then:</p>			
<ul style="list-style-type: none"><li>- default CSS</li><li>- b</li><li>- c</li><li>- a</li></ul>			

Expected behaviour (as in non-concatenated example):

- a
- c
- default CSS
- b

#### History

##### #1 - 2014-02-16 17:15 - Markus Klein

Hi! I checked that too, but forceOnTop for includeCSS is not documented to exist.

## #2 - 2014-02-16 17:18 - Stefan Neufeind

Oh my :( But it works if you don't concatenate. Imho then we should:

- fix it for the concatenate-case as a "TASK" (make the functionality complete)
- document it
