

Core - Bug # 56105

Epic # 61834 (Accepted): Create future proof Content Element with strong default

Task # 61836 (Accepted): Reorganize Content Element properties within backend Extension

Task # 61842 (New): Refactor CSS-Styled-Content + Content Elements

Status:	New	Priority:	Should have
Author:	Christian Clemens	Category:	Content Rendering
Created:	2014-02-19	Assigned To:	
Updated:	2014-09-27	Due date:	
TYPO3 Version:	6.2		
PHP Version:			
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	image position below: No margin-bottom if more than one image		
Description			
Tested with TYPO3 6.2beta4:			
If I add a content element "text with image" with only one image (position: below), then a margin-bottom:10px is added to:			
<div>div.csc-textpic .csc-textpic-imagewrap .csc-textpic-image {margin-bottom: 10px;}</div>			
If I add a content element "text with image" with two images beside each other or below each other (again with position: below), then there is no such margin-bottom. In the result, the text is directly below the images - see attached screenshot.			
In TYPO3 4.5.32 the margin-bottom exists.			

History

#1 - 2014-02-19 10:07 - Christian Clemens

I'm sorry: the title of this task is not correct, should be something like this "image position below: No margin-bottom if more than one image". Can't change this...

#2 - 2014-09-24 12:48 - Felix Kopp

- Parent task set to #61842

#3 - 2014-09-24 12:48 - Felix Kopp

- Subject changed from No margin-bottom under last image to image position below: No margin-bottom if more than one image

#4 - 2014-09-27 00:22 - Frank Nägler

can reproduce this, the CSS set this explicit to margin-bottom: 0;
