

## Core - Feature # 56133

<b>Status:</b>	Resolved	<b>Priority:</b>	Could have
<b>Author:</b>	Bernhard Eckl	<b>Category:</b>	File Abstraction Layer (FAL)
<b>Created:</b>	2014-02-19	<b>Assigned To:</b>	
<b>Updated:</b>	2015-07-15	<b>Due date:</b>	
<b>PHP Version:</b>	5.3		
<b>Complexity:</b>			
<b>Sprint Focus:</b>			
<b>Subject:</b>	Replace file feature for fal file list		
<b>Description</b>			
Actually I use TYPO3 4.7 with DAM because of the need of the feature, a button to replace a file (new file upload, gets renamed to old filename on the server). Neither TYPO3 6.2 has this feature yet, nor the media extension.

[!!!][FEATURE] Replace file feature for FAL file list

Provides a new button "replace" at the extended view in FAL equal to DAM. Its possible to replace a file

- with a new one -> old file will be overwritten; identifier of the file object will be kept
- with a new one -> old file will be deleted; identifier of the file object will be changed to the new filename

The file replacing also respects unique filenames.

To allow editors to replace files the need the "Files: Replace" permissing needs to be set.

### History

**#1 - 2014-02-19 23:19 - Bernhard Eckl**

This is also because if the file is replaced, the references to the file don't have to be updated manually one by one, they are just right.

**#2 - 2014-02-23 09:08 - Frans Saris**

- *Status changed from New to Needs Feedback*

You can do this already by uploading a new file with the same name and choose "override existing file". Is not that enough?

**#3 - 2014-02-23 10:37 - Bernhard Eckl**

Yes, but the problem is that the filename on the client is different (e.g. there is a version number in the filename). But the filename on the internet should be clean (good name without versions, person names etc.). If the editors first have to rename the file before uploading, they will make mistakes.

- *Category changed from Backend User Interface to File Abstraction Layer (FAL)*
- *Status changed from Needs Feedback to New*
- *Priority changed from Should have to Could have*

**#5 - 2014-11-19 17:27 - Frank Gerards**

+1 for this feature , at least inside the media-extension

**#6 - 2015-02-02 11:58 - Stephan Brun**

+1 for this feature , at least inside the media-extension, as Frank said

**#7 - 2015-03-30 11:37 - Sebastian Helzle**

+1 for this feature, would be really helpful in our projects

**#8 - 2015-04-21 10:45 - Tobias Schmidt**

+1 for this feature

**#9 - 2015-04-21 16:56 - Tobias Schaefer**

- *File media\_extension\_replace\_file.jpg added*

The media-extension is coming with the replace file-feature now (see screenshot). The replace file-button is shown in the edit-view.

**#10 - 2015-05-10 20:57 - Ephraim Härer**

+1 for this feature, please merge into core

Patch set 2 for branch **TYPO3\_6-2** of project **Packages/TYPO3.CMS** has been pushed to the review server.

It is available at <http://review.typo3.org/39629>

**#13 - 2015-06-22 16:32 - Ephraim Härer**

It's not exactly what I wanted but it looks good and works for me on my 6.2.12 and 6.2.13 installation.

**#14 - 2015-06-24 15:33 - Bernhard Eckl**

I just tested the patch. It works, but the filename is changed to the new file. The filename should not be changed (this is one reason why I need this feature, filenames should always be the same).

**#15 - 2015-06-24 15:59 - Markus Klein**

Please add your comments for the patch directly in Gerrit, otherwise they might not be seen by the reviewers!

use the links above and log in with your TYPO3 account. the Reply button on the top allows you to comment and vote (-1 then in your case).

**#16 - 2015-06-24 16:59 - Ephraim Härer**

This comments you will find also in Gerrit ;-)
