Subject:	Fatal error: Call to a member function query() on a non-object		

Description
When activating EXT:dbal in EM, I run into: Fatal error: Call to a member function query() on a non-object in /var/www/typo3/typo3_src-master/typo3/sysext/core/Classes/Database/DatabaseConnection.php on line 457 It breaks the whole installation, until I manually remove dbal from LocalConfiguration and PackageStates. master @4da4dba52009760005095a5013245d5d169ce9a5

Hello Steffen,

I know this problem, too. Here is a workaround:

Edit LocalConfiguration.php and change following line:

    'dbal' => 'a:2:{s:10:"sql_query.";a:1:{s:11:"passthrough";s:1:"1";}s:13:"Compatibility";s:0:"";}',

to

    'dbal' => 'a:2:{s:10:"sql_query.";a:1:{s:11:"passthrough";s:1:"0";}s:13:"Compatibility";s:0:"";}',

Clear cached LocalConfiguration in typo3temp/Cache/Code/ and you're done.

Stefan
