<b>Sprint Focus:</b>			
<b>Subject:</b>	Extract complex "class loader cache building" code into ClassLoadingInformationFactory		
<b>Description</b>	<p>to reduce the footprint in runtime when only classes can be loaded from classes cache the whole resoval code should be extracted to an external class which only is included when rebuilding caches</p> <p>same goes for the "getAlias" and "getClassnames" code in the Package class itself</p>		

### History

**#1 - 2015-01-26 10:08 - Mathias Schreiber**

- Status changed from New to Closed

fixed with composer ClasLoader
