[BUGFIX] Fix StorageRepository::findByStorageType

Since optimizing the retrieval of Storages the findByStorageType() doesn't find any (also right ones) storage, because of a wrong comparison.

This fixes also the localDriverStorageCache in ResourceFactory, finding a bestMatchingStorageByLocalPath in ResourceFactory, getting the right storage for a local path as fileIdentifier and creation of duplicate entries in sys\_file with storage 0.

Resolves: #56400

Releases: 6.2
