

Core - Bug # 56570

Status:	Closed	Priority:	Must have
Author:	Jan Kieseewetter	Category:	
Created:	2014-03-05	Assigned To:	
Updated:	2015-01-24	Due date:	
TYPO3 Version:	6.2		
PHP Version:			
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	No rendering definition for CE / no list for plugins if csc is includes with INCLUDE_TYPOSCRIPT		
Description			
If you use			
<pre><INCLUDE_TYPOSCRIPT: source="FILE:EXT:css_styled_content/static/setup.txt"></pre>			
to include csc in a distribution package, all plugins / CE configuration added with			
<pre>\TYPO3\CMS\Extbase\Utility\ExtensionUtility::configurePlugin('T3see.' . \$_EXTKEY, 'Slider', array('Slider' => 'show'), // non-cacheable actions array(), \TYPO3\CMS\Extbase\Utility\ExtensionUtility::PLUGIN_TYPE_CONTENT_ELEMENT);</pre>			
or			
<pre>\TYPO3\CMS\Extbase\Utility\ExtensionUtility::configurePlugin('T3see.' . \$_EXTKEY, 'Pi1', array('Map' => 'show'), // non-cacheable actions array(), \TYPO3\CMS\Extbase\Utility\ExtensionUtility::PLUGIN_TYPE_PLUGIN);</pre>			
are overridden.			
A solution would be to include TypoScript from ExtensionUtility::configurePlugin after ExtensionManagementUtility::addStaticFile.
