TYPO3.Flow - Feature # 56744

Status:	New	**Priority:**	Must have
Author:	Simon Schaufelberger	**Category:**	
Created:	2014-03-11	**Assigned To:**	
Updated:	2014-03-27	**Due date:**	
PHP Version:			
Has patch:	No		
Complexity:	medium		
Subject:	stay logged in		

Description
Currently the Flow Developer has to set a session timeout globally for all sessions. What i need is that the user can decide if he wants to stay logged in just for this session (session will be over after browser closing) or stay logged in for a configured time like 1 month or so. Needed: 1. A checkbox to activate the stay logged in feature (__authentication[TYPO3][Flow][Security]...) 2. A secure way to store a local cookie that identifies the user see "showPermaLogin" in TYPO3 CMS felogin
