[CLEANUP] Remove deprecated filemount functions in BE_USER

With the introduction of the file abstraction layer, the filemount functionality was deprecated in 6.0 but wasn't removed.

However, the usage of addFileMount() in rtehtmlarea and EXT:recordlist is now removed, since the added filemounts are never read anywhere, so this is only dead code.

The functionality needs to be re-implemented.

Releases: 6.2

Resolves: #56772
