[BUGFIX] Split functional workspaces DataHandling test execution

Travis-CI stops after 10 minutes of not having received any data, unfortunately it seems that the execution of the whole bunch of functional workspaces tests takes longer,

see <https://travis-ci.org/TYPO3/TYPO3.CMS/jobs/20590551>

The "solution" is to explicitly split up these tests for parallel execution in Travis-CI.

Resolves: #56806

Releases: 6.2
