- File *issue_56868.diff* added

I have a patch, but I'm not allowed to push :-(

```
$ git push origin HEAD:refs/for/master
```

```
fatal: unable to access 'http://git.typo3.org/TYPO3CMS/Extensions/gridelements.git/': The requested URL returned error: 403
```

#2 - 2014-03-13 13:36 - Gerrit Code Review

Patch set 1 for branch **master** of project **TYPO3CMS/Extensions/gridelements** has been pushed to the review server.

It is available at <https://review.typo3.org/28343>

#3 - 2014-03-13 13:38 - Marco Huber

ah, I had to insert a second pushInsteadOf into my gitconfig:

```
[url "ssh://USERNAME@review.typo3.org:29418"]  
  pushInsteadOf = git://git.typo3.org  
  pushInsteadOf = http://git.typo3.org
```

#4 - 2014-03-13 17:14 - Gerrit Code Review

Patch set 2 for branch **master** of project **TYPO3CMS/Extensions/gridelements** has been pushed to the review server.

It is available at <https://review.typo3.org/28343>

#5 - 2014-03-17 18:35 - Marco Huber

- Status changed from *New* to *Resolved*
- % Done changed from 0 to 100

Applied in changeset commit:2b0e05973b2b98727f4a5babd4dcccce893a3f3e.

#6 - 2014-10-17 11:51 - Jo Hasenau

- Status changed from *Resolved* to *Under Review*
- Priority changed from *Should have* to *Must have*

It seems the issue is a bit more tricky and not resolved completely yet.

Got reports today, that indexed search is not working properly with grid children.

SYS_LASTCHANGED update in the frontend does not seem to be enough, which is why we should move that to the backend.

#7 - 2014-12-12 09:29 - Michiel Roos

Please push this partial fix.

#8 - 2014-12-12 10:32 - Michiel Roos

What exactly does not work with indexing and grid children? And how can I reproduce this?

The patch seems to work fine for updating a page.

I just discovered a related issue concerning clearCacheCmd: <https://forge.typo3.org/issues/63798>

The only other place in the core that I can find related to SYS_LASTCHANGED and indexing is in
\\TYPO3\\CMS\\IndexedSearch\\Indexer::hook_indexContent

#9 - 2014-12-12 10:33 - Jo Hasenau

Sorry - completely forgot this one - thanks for the reminder :-)

#10 - 2014-12-12 10:39 - Jo Hasenau

Well - for a perfect solution IMHO the stuff should not be applied in the frontend and it has to be done recursively. When a child element gets added or updated, this should trigger a change of the parent element, which again should trigger a change for a possible grandparent and so on, with the final parent being the page.

This way we could completely remove the patch from the frontend and make sure everything is fine even for people who do not use the "official" plugin methods to fetch their gridelements.

#11 - 2014-12-17 14:33 - Jo Hasenau

- Status changed from Under Review to On Hold

Since there are some issues in the core related to problems with SYS_LASTCHANGED as well - we will have to wait for a final decision here.
