

Core - Bug # 56897

Status:	Resolved	Priority:	Should have
Author:	Peter Niederlag	Category:	
Created:	2014-03-14	Assigned To:	Peter Niederlag
Updated:	2014-03-14	Due date:	
TYPO3 Version:	6.2		
PHP Version:			
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	Unit Test failing because missing \$GLOBALS['LANG']		
Description			
1.) The bootstrap of the unit testing framework doesn't call initializeLanguageObject(), which is responsible for making GLOBALS['LANG'] available.			
2.) FieldProviderTest->validateAdditionalFieldsReturnsTrue() creates an instance of \TYPO3\CMS\Scheduler\Controller\SchedulerModuleController() which can't access GLOBALS['LANG']
