Subject:	Tx_Extbase_Utility_Extension not found in 6.2.0-beta6		
Description			
Hi all			
I get the following error when trying to install the Arcavias extension in a fresh TYPO3 6.2.0-beta6 installation:			
PHP Fatal error: Class 'Tx_Extbase_Utility_Extension' not found in .../arcavias/ext_localconf.php			
The problem seems to be that the class aliases in typo3/sysex/extbase/Migrations/Code/ClassAliasMap.php for translating Tx_Extbase_Utility_Extension into TYPO3\CMS\Extbase\Utility\ExtensionUtility are not available when trying to install an extension in the extension manager.			
Best regards,			
Norbert

Did you try to add in LocalConfiguration in the array extListArray the extension extbase & fluid?

- Status changed from New to Needs Feedback
- Target version deleted (6.2.0)
- Is Regression set to No
- TYPO3 Version set to 6.2

This is a known bug. You can test with <http://forge.typo3.org/issues/54906>

Make sure after applying the patch to clear typo3temp/Cache
