Complexity:	easy		
Is Regression:	No		
Sprint Focus:			
Subject:	Remove unmaintainable testclass		
Description			

typo3/sysext/extbase/Tests/Unit/Scheduler/TaskExecutorTest.php contains only one test, but to execute this, it depends on many classes, that are not all properly mocked and therefor a nightmare to maintain. Additionally has the test nothing to do with the execution of tasks, what would be in scope of a unittest.
In order to keep the test maintenance a doable task the testclass gets removed.

[TASK] Remove unmaintainable testclass

The test class contains only one test, but to execute this,

it depends on many classes which are not all properly mocked and a

nightmare to maintain. Additionally the test has nothing

to do with the execution of tasks, so subject scope is not met.

To keep test maintenance a doable task this test class in removed.
