Subject:	SoftReferenceIndex typolink[linkList] missing support separation by line feed

Description

Since #24121 the field content in image_link is separated by line feeds instead of commas. Since then the soft reference parser "typolink[linkList]" is broken for this field.
This results in broken image links on imports and exports.

Revision 83a4e3f5 - 2014-10-23 22:46 - Marc Bastian Heinrichs

[BUGFIX] softrefproc typolink lacks support for separation by line feed

Since #24121 the field content in "image_link" is separated by line feeds instead of commas. Since then the soft reference processor for "typolink[linkList]" is broken for this field. This results in broken image links in imports and exports and possible unchecked links in linkvalidator extension. In 4.7 this applies also for the field "longdescURL".

This have not to be fixed for versions later than 4.7, because since 6.0 the fields "image_link" and "longdescURL" aren't used anymore.

Resolves: #57006
Releases: 4.7, 4.5
