<b>Sprint Focus:</b>			
<b>Subject:</b>	Parent language is not applied to new child records		
<b>Description</b>			
Hi!			
When creating a element in another language than the default language and adding a child element via IRRE, i am expecting that the child element gets the same language as the parent element.			
For instance a news element from tx_news:			
<div>1. Create new news element and choose a language which is not defined as default</div> <div>2. save</div> <div>3. add a media element via irre</div> <div>4. now you have to select the language in the media element again</div>			
This behaviour is not very usable for editors.

Revision cf9ca274 - 2014-05-28 14:11 - David Greiner

[BUGFIX] Parent language is not applied to new child records

If localizing a parent-child structure, usually the language of the parent element shall be applied to related child records as well as new child records.

Due to a missing array segment, the accordant section in the the InlineElement source code never was processed.

Resolves: #57063

Releases: 6.2, 6.1

### #1 - 2014-04-09 11:55 - David Greiner

- File *InlineElement.patch* added

I think there is a bug in `/typo3/sysext/backend/Classes/Form/Element/InlineElement.php`

Defining

```
'behaviour' => array(
    'localizationMode' => 'select',
    ...
),
```

should be necessary since it is described in

<http://docs.typo3.org/typo3cms/TCAReference/Reference/Columns/Inline/Index.html#columns-inline-properties-behaviour>

Adding this to the TCA configuration does not take effect cause of `InlineElement.php:1223` checks for `$config['localizationMode']` and not for `$config['behaviour']['localizationMode']`.

This is what the attached patch updates.

The patch is for the current master branch (6.2) in <https://git.typo3.org/Packages/TYPO3.CMS.git>

### #2 - 2014-04-09 13:52 - David Greiner

- File *InlineElement\_2nd.patch* added

Second patch is better.

**#3 - 2014-05-27 15:12 - Oliver Hader**

- *Status changed from New to Accepted*
- *Complexity set to medium*

I'll have a look - thx for the patch!

Besides that, I could reproduce the misbehavior.

**#4 - 2014-05-27 15:12 - Oliver Hader**

- *PHP Version set to 5.3*

**#5 - 2014-05-27 16:08 - Oliver Hader**

- *Subject changed from IRRE: Use localization of parent element to Parent language is not applied to child records*

**#6 - 2014-05-27 16:09 - Oliver Hader**

- *Subject changed from Parent language is not applied to child records to Parent language is not applied to new child records*

**#7 - 2014-05-27 16:16 - Gerrit Code Review**

- *Status changed from Accepted to Under Review*

Patch set 1 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server.

It is available at <https://review.typo3.org/30448>

**#8 - 2014-05-27 16:18 - Oliver Hader**

David, I modified your patch a little bit, however it was the correct place and correct bug analysis! Good catch & thanks!

**#9 - 2014-05-27 21:01 - David Greiner**

Great. Thx for that :)

**#10 - 2014-05-28 14:12 - Gerrit Code Review**

Patch set 1 for branch **TYPO3\_6-1** of project **Packages/TYPO3.CMS** has been pushed to the review server.

It is available at <https://review.typo3.org/30472>

**#11 - 2014-05-28 14:19 - Teamgeist Medien**

Just wasted a half day with handling the complications without this function working. Thanks alot!

**#12 - 2014-05-28 14:30 - David Greiner**

- *Status changed from Under Review to Resolved*
- *% Done changed from 0 to 100*

Applied in changeset commit:3e6e8ec89c00b04485a3c6050e0cfdd9548a213e.
