[BUGFIX] Queries with NULL don't work anymore

See change: I517c0500cad75cae96fd739f2ff7222db80b42a5

At the end of the Typo3DbQueryParser::parseComparison() method the updated operator for NULL values was no longer passed to the parseDynamicOperand, generating = NULL instead of IS NULL.

Solved the issue by adding the operator parameter again.

[BUGFIX] FOLLOWUP Queries with NULL don't work

In <https://review.typo3.org/28592> we apparently did not fix the whole problem. This followup will deal with the edge-case of using a similar built statement, which results in the same hash being generated from the QueryParser.
