Core - Bug # 57265

Status:	Rejected	Priority:	Should have
Author:	Philipp Gampe	Category:	Performance
Created:	2014-03-25	Assigned To:	
Updated:	2014-03-25	Due date:	

TYPO3 Version:	6.2
PHP Version:	
Complexity:	medium
Is Regression:	No
Sprint Focus:	

Subject:	Importing large amounts of data issues many truncate's

Description

While importing large amounts of data (e.g. while installing a distribution),
\TYPO3\CMS\Core\DataHandling\DataHandler::clear_cache() is called for each record.
clear_cache() in turn tries to clean each related page frontend cache and finally (because of the default setting) deletes the cache group pages.

This results in some 10000 truncate calls being issued to the database.
