Sprint Focus:	

Subject:	Add first level cache for the query cache

Description

The Extbase query cache pollutes the database by querying
the same cache identifier over and over again. This for example
doubles the amount of fired database queries for fetching related
objects at the moment.

[TASK] Add first level cache for the query cache

The Extbase query cache stresses the database by querying
the same cache identifier over and over again. This for example
doubles the amount of fired database queries for fetching related
objects at the moment.

Introduce a first level cache saving the cache entries during
runtime.
