

TYPO3.Neos - Bug # 57877

Status:	Closed	Priority:	Should have
Author:	Carsten Bleicker	Category:	
Created:	2014-04-13	Assigned To:	
Updated:	2014-10-02	Due date:	

Subject: Copy @live content into other structure copies into @live instead of @editorcontext

Description

1. Select Live Content in Structure Panel
2. Klick copy
3. Navigate to another page
4. Select child collection
5. Insert Copy element

I would expect that the copied element is in @editorcontext and publish buttons will switch.
Also it does not get marked with "orange" visual effekt to see this is unpublished.

History

#1 - 2014-04-13 16:06 - Carsten Bleicker

Update:

After reloading the whole backend its detected as "not published".

So it copies to @editorcontext but sync in the backend seems to be broken.

#2 - 2014-06-03 22:09 - Christian Müller

- Status changed from New to Needs Feedback

works for me, either fixed in master or a race condition?

#3 - 2014-06-03 22:25 - Carsten Bleicker

Damn it!

I had it again some minutes ago.

Want to produce a video ... its gone ...

Gnaaaaaaaa

#4 - 2014-10-02 10:54 - Lienhart Voitok

- Status changed from Needs Feedback to Closed

No feedback was given within 4 month, so I consider this resolved. If the issue persists, please open a new ticket at <https://jira.typo3.org/>
