Sprint Focus:	

Subject:	New prototype version hides elements during dragging in IE
Description	

After upgrading prototype (and scriptaculous) elements are hidden in IE during dragging. The cause is that the getOpacity function sometimes returns a floating number and sometimes a string. This causes problems in the animation of the opacity during dragging. This has impact on things like the Task Center, TemplaVoilà Page module and in older releases IRRE.

Revision 1d967bfe - 2014-11-19 10:06 - Jigal van Hemert

[BUGFIX] Handle opacity for IE in prototype.js

The new prototype.js sometimes returns a string as opacity value
instead of a float. This causes problems with the starting
animation for dragging an item, making it completely hidden during
dragging.
Forcing the result to be a float results in a correct opacity.

Resolves: #58053
Releases: 6.2, 6.1, 4.7, 4.5
