Core - Bug # 58138

Status:	Resolved	**Priority:**	Must have
Author:	Falk Aaron	**Category:**	
Created:	2014-04-23	**Assigned To:**	Helmut Hummel
Updated:	2014-09-09	**Due date:**	
TYPO3 Version:	6.2		
PHP Version:	5.4		
Complexity:			
Is Regression:	No		
Sprint Focus:			
Subject:	CSRF with registerModule and navFrameScript		

Description
How to use \TYPO3\CMS\Extbase\Utility\ExtensionUtility::registerModule with navFrameScript parameter?
It does not work, as the modules are loaded before the BE_USER, so BackendUtility::getModuleUrl does only retrieve a "dummyToken".
May you help me out?

Revision f8b88c84 - 2014-06-21 16:56 - Helmut Hummel

[TASK] Add possibility to register a module as navigation

While implementing CSRF protection for backend modules,

it was forgotten to implement a solution for navigation components

that also could be modules.

Add this possibility now by introducing yet another

configuration option for modules.

Resolves: #58138

Documentation: #59369

Releases: 6.3, 6.2

- Status changed from New to Needs Feedback

You want to have a custom navFrame, right? How does the URL to your navigation must look like? is it mod.php?M=<moduleName> ... ?

Can you also show me how you tried to register this navigation component?

Thanks

#2 - 2014-06-04 15:33 - Falk Aaron

'navFrameScript' => BackendUtility::getModuleUrl('RolRkchannelRkchannel_RolRkchannelM3',
array('tx_rolrkchannel_rolrkchannelrkchannel_rolrkchannelm3[action]'=> 'tree'))

Thats how i configure the navFrameScript. It's not working like that.

Please check the patch in the review system.

Apply the patch and configure the navigation as follows:

'navigationFrameModule' name of the module that is loaded in the navigation frame
'navigationFrameModuleParamters' additional parameters (if needed and specified)
