

TYPO3.Neos - Bug # 58183

Status:	Resolved	Priority:	Should have
Author:	Daniel Corn	Category:	UI
Created:	2014-04-25	Assigned To:	
Updated:	2014-06-21	Due date:	
Subject:	HTML editor and Media window should close when changing page		
Description			
<p>When I open an HTML editor or the window to choose a media asset I can close it by clicking on the inspector button again, or hit "Discard changes" or "Apply". But when I change the page without closing the window, I will not be able to close it.</p>			
Reproduce it:			
Select a HTML element			
Click "Edit HTML"			
Select another page in the navigator			
Inspector shows the page properties			
Problem:			
HTML editor stays open and cannot be closed, because all inspector-buttons that would close the editor disappeared.			
Workaround:			
Refresh the complete browser
