

TYPO3.Flow - Bug # 58193

Status:	Under Review	Priority:	Should have
Author:	Bastian Waidelich	Category:	
Created:	2014-04-25	Assigned To:	Karsten Dambekalns
Updated:	2014-05-23	Due date:	
PHP Version:			
Has patch:	No		
Complexity:	easy		
Affected Flow version:	Git master		
Subject:	Forward-port changelogs to master branch		
Description			
<p>Currently most of the change-log-links on http://flow.typo3.org/download are broken because the change-logs are missing in the latest documentation.</p> <p>Reason is that change-logs are currently only pushed to the branch they belong to.</p> <p>IMO we should adjust the release scripts so that logs are (also) pushed to master, so that master (and docs.typo3.org) contain the full change-log of all branches.</p> <p>@Karsten I had a quick look into the shell scripts, but I'm lost and it's probably really easy for you so I took the liberty to assign this to you ;)</p>
