| <b>Subject:</b>   | add test for commandline tool expect |                     |           |
| <b>Description</b>  |                                      |                     |           |
| it would be nice, if there would be a warning, if expect is missing.<br>Currently you get a simple:<br><br>Got exception "Deployment directory "/export/home/project/builds/testing" does not exist on node Staging" but rollback disabled. Stopping. |                                      |                     |           |

### History

#### #1 - 2014-07-28 13:19 - Kay Strobach

Bash

```
if hash expect 2>/dev/null; then
    exit 0
else
    exit 1
fi
```

should do it easily referring to <https://stackoverflow.com/questions/592620/how-to-check-if-a-program-exists-from-a-bash-script>

perhaps this should be made to a task, having a parameter which defines, for which binary tests should be executed ...
