Core - Bug # 58379

Task # 49162 (Resolved): Rewrite install tool

Status:	New	**Priority:**	Should have
Author:	Christian Kuhn	**Category:**	Install Tool
Created:	2014-05-01	**Assigned To:**	
Updated:	2015-07-10	**Due date:**	
TYPO3 Version:	6.2		
PHP Version:	5.5		
Complexity:	medium		
Is Regression:	No		
Sprint Focus:			
Subject:	Detect display_errors=Off during installation		

Description
If global display_errors is off, and the install tool fatals during installation for whatever reason, user may get a white page instead of an exception, leaving him without reasonable information.   Maybe this could be adapted in the install steps or in the global installation?

History

- Parent task set to #49162

#2 - 2015-07-10 18:17 - Helmut Hummel

Do we really want to hint people into heaving insecure server setups?

We could however just set the ini setting to on during the installation process. this would work in most hosting setups …

#3 - 2015-07-10 21:41 - Georg Ringer

- Subject changed from Detect dispaly_errors=Off during installation to Detect display_errors=Off during installation
