[BUGFIX] Fail silently in category registry

The idea was to fail when the category registry
is used in a wrong way. This however causes troubles
when the core itself reloads extension tables during
extension installation process.

Remove the exceptions, fail silently on wrong usage
and let the installation work again.

History

#1 - 2014-05-01 14:37 - Christian Kuhn

Installing a distribution currently fails with exception "applyTcaForPreRegisteredTables has already been called. It is not allowed to call it a second
time."

This seems to be a regression from #58004

#2 - 2014-05-01 19:06 - Xavier Perseguers

Experienced that today as well. Trying again by going back to EM works then.
