TYPO3.Flow - Bug # 58517

Status:	Resolved	**Priority:**	Should have
Author:	Frederik Vosberg	**Category:**	MVC - Routing
Created:	2014-05-05	**Assigned To:**	Bastian Waidelich
Updated:	2015-04-26	**Due date:**	

PHP Version:	
Has patch:	No
Complexity:	
Affected Flow version:	Git master
Subject:	Integer arent allowed as object identifier in routes

Description

I want to have an integer as persistence object identifier, so I implemented it this way:

```
/**
 * @var int
 * @ORM\Id
 * @ORM\GeneratedValue
 * @Flow\Identity
 */
protected $id;
```

But flow raised an exception while it tries to resolve the route for the show action for my object. I think the following part of the core is the problem, isnt it?

I attached my patch.

[BUGFIX] Support numeric identifiers in dynamic route parts

Currently the dynamic route part handler provided by Flow (namely
``DynamicRoutePart`` and ``IdentityRoutePart``) only support objects
with string identifiers.

With this change also numeric identifiers are supported, for example
for entities with a numeric auto_increment identifier.
