

Core - Bug # 58525

Status:	Closed	Priority:	Should have
Author:	Loek Hilgersom	Category:	
Created:	2014-05-05	Assigned To:	
Updated:	2014-05-05	Due date:	
TYPO3 Version:	6.2		
PHP Version:	5.5		
Complexity:			
Is Regression:	Yes		
Sprint Focus:			
Subject:	First usergroup from BE-user no longer applied to new pages		
Description			
<p>On sites running v6.2.0 or 6.2.1, new pages created in the backend do not get the first usergroup of the BE-user applied when this is set. This is the case for both admins and regular users.</p> <p>Up to v6.1.x, the behaviour used to be that new pages would belong to the BE-usergroup that was first in the list of groups of the user who created the page. (Checked with 6.1.8)</p> <p>Using git bisect, I tracked it down to this commit, between beta3 en 4:</p> <p>0a761995a14e870c7a2f21547acf073c9293d856 is the first bad commit commit 0a761995a14e870c7a2f21547acf073c9293d856 Author: Jo Hasenau <info@cybercraft.de> Date: Sun Dec 1 14:34:14 2013 +0100</p> <p>[TASK] Replace all strcmp() calls with === This patch replaces about 300 places using strcmp() in the whole core. There are different contexts for strcmp() within this set, i.e. checking for strings being '0', , not " and the like.</p> <p>strcmp() has to stay when it comes to real sorting of strings, which is a rather rare case, otherwise it can be replaced with faster alternatives.</p> <p>The following 'rules' were used for the replacement:</p> <ul style="list-style-type: none">- Use a type cast if you can't be sure about the incoming values. We do not need type casts if the types are implicitly defined before by another function. i.e. intval(), trim(), substr()- Use int-cast whenever the values to be compared are numbers only.- Use string-cast for any other combination. i.e (string)\$len === '0' when \$len can be NULL, which is different to (int)\$len === 0 <p>Resolves: #54085 Releases: 6.2 Change-Id: I88fb294ae20d8c23ff58d8296fbb37925d5213c8 Reviewed-on: https://review.typo3.org/25843 Reviewed-by: Markus Klein Tested-by: Markus Klein</p>

Hi Loek!

Thanks for tracking this down.

I'd say this is a duplicate of #56393. I suggest to close this issue and continue there.
