Updated:	2015-06-26	Due date:	
TYPO3 Version:	6.2		
PHP Version:			
Complexity:			
Sprint Focus:			
Subject:	Ignore sys_file_reference records pointing to missing files on import		
Description	It could happen, that an export contains sys_file_reference records with relations to sys_files records, that was missing on the exporting system. This causes exceptions on importing the sys_file_reference records, because on saving of the sys_file_reference record the related sys_file record is checked.
