Revision 1d23e5e0 - 2014-06-01 21:04 - Helmut Hummel

[BUGFIX] Keep session cookie if session data is present

The AbstractUserAuthentication::checkAuthentication() method calls the logoff() method on every failed login attempt.

Since a logoff also causes a removal of the cookie, any (anonymous) session data will be left inaccessible.

Keep the cookie when session data is present.

Releases: 6.2

Resolves: #58713

Revision df11f015 - 2014-06-17 00:23 - Helmut Hummel

Revert "[BUGFIX] Session cookie is not recreated on login"

This reverts commit 76741dff7b967b88aa1d6e556500a77716c7a97a

(<https://review.typo3.org/29626>)

This change is not needed any more as the fix done for #58713 also fixes the issues targeted with this fix.

This should be reverted not only because it is not needed any more but especially because it "abuses" the property ->newSessionID which should only be set when really a new ID has been generated and not to force the cookie to be set again.

History

#1 - 2014-05-29 13:32 - Markus Klein

- Status changed from New to Accepted

Easiest way to reproduce

- Click on the forgot password link (fe cookie is created)
- Click on the back to login link (fe cookie still there)
- Let a login fail
- Notice the cookie is gone

What happens in the background

When the cookie is first set, its id is chosen randomly.

On login attempts a former session (but not the session data!) is discarded and the cookie is unset, I guess for security reasons.

- If the login succeeds a new session is created (but with the same id, as the id was present from the cookie beforehand) and the sessions data is preserved as the session id is now existing again.
- If the login fails, no cookie is set anymore and the session data is lost forever since the next login attempt will generate a new id.

#2 - 2014-05-29 13:32 - Markus Klein

- Complexity set to medium

#3 - 2014-05-29 13:34 - Markus Klein

- Subject changed from Fail Login with feuser delete the fe_typo_user cookie to Failed feuser login removes the existing session data

#4 - 2014-05-29 14:15 - Gerrit Code Review
