TYPO3 Version:	6.2
PHP Version:	
Complexity:	
Sprint Focus:	

Subject:	Check and use current hash and size on export to prevent errors on import.

Description

On creating exports the file hash and size is used from the sys_file table.

Since this could differ in real live projects, those files would not be imported.

To prevent this, use the correct data for the export, but show an error to the user.

[TASK] Check and use current file hash and size on export

On creating exports the file hash and size is used from the

sys_file table. Since this could be not up-to-date in real live

projects, those files fail to be imported.

To prevent this, use the correct data for the export and show

an error to the user.

Resolves: #58761

Releases: 6.2
