

TYPO3.Flow - Bug # 58773

Status:	Accepted	Priority:	Should have
Author:	Bastian Waidelich	Category:	MVC - Routing
Created:	2014-05-13	Assigned To:	Bastian Waidelich
Updated:	2014-05-13	Due date:	
PHP Version:			
Has patch:	No		
Complexity:			
Affected Flow version: Git master			
Subject:	Improve NoMatchingRouteException		
Description			
<p>Currently, when trying to create an URI but no matching route could be found, one only gets a very generic "Could not resolve a route and its corresponding URI for the given parameters." exception.</p> <p>Because this exception is very common it should be improved so that the developer knows what to do about it.</p>			

History

#1 - 2014-05-13 15:59 - Bastian Waidelich

- File 58773_before.png added

- File 58773_after.png added

I started on a basic solution that suggests a route configuration if its missing:

Before:

58773_before.png

Afterwards:

58773_after.png

Unfortunately this needs a tweaked DebugExceptionHandler that can render the exception details as preformatted text.. otherwise the route configuration is not readable
