

## TYPO3.Fluid - Bug # 5879

<b>Status:</b>	Resolved	<b>Priority:</b>	Should have
<b>Author:</b>	Kim Lang	<b>Category:</b>	ViewHelpers
<b>Created:</b>	2010-01-04	<b>Assigned To:</b>	Bastian Waidelich
<b>Updated:</b>	2010-10-20	<b>Due date:</b>	2010-06-21
<b>Has patch:</b>			
<b>Affected Flow version:</b>			
<b>Subject:</b>	It's not possible to make the multiple attribute optional		
<b>Description</b>			
<p>In my extension i have a flexform where i can configure the attributes of every formfield. I use the IF inline syntax in the "view" to achieve this.</p> <p>This works well for all attributes except for the multiple attribute.</p> <p>Example:</p> <pre>&lt;f:form.Select   property="{fieldHelper.name}"    options="{fieldHelper.config.options}"    id="{form.name}_{fieldHelper.name}"    disabled="{f:if(condition: fieldHelper.config.disabled, then: 'disabled')}}"   multiple="{f:if(condition: fieldHelper.config.multiple, then: 'multiple')}}"    accesskey="{fieldHelper.config.accesskey}"   tabindex="{f:if(condition: fieldHelper.config.tabindex, then: fieldHelper.config.tabindex)}" /&gt;</pre> <p>The problem is in the SelectViewHelper it checks only if the attribute is given not have a value. Lines: 111, 125, 213 if (\$this-&gt;arguments-&gt;hasArgument('multiple')) {</p> <p>this syntax is unfortunately not working:</p> <pre>&lt;f:form.Select   {f:if(condition: fieldHelper.config.multiple, then: 'multiple="multiple"')} /&gt;</pre>

Revision a4986d6b - 2010-06-23 15:12 - Bastian Waidelich

[+BUGFIX] Fluid (ViewHelpers): form.select ViewHelper did only check whether "multiple" attribute was set and not whether it was empty or not.  
Resolves #5879
