TYPO3.Flow - Bug # 58853

Status:	Resolved	**Priority:**	Must have
Author:	Kay Strobach	**Category:**	Configuration
Created:	2014-05-16	**Assigned To:**	
Updated:	2014-06-12	**Due date:**	

PHP Version:	5.5
Has patch:	No
Complexity:	
Affected Flow version:	Git master
Subject:	configuration:validate -> Problems in FLOW

Description

Packages/Framework/TYPO3.Flow/Configuration/Settings.yaml:195

    ./flow configuration:validate --type Settings
    Validating Settings configuration

    1 errors were found:
     - Settings.TYPO3.Flow.persistence.cacheAllQueryResults -> This property is not allowed here, check the spelling if you think
    it belongs here.

Packages/Framework/TYPO3.Flow/Resources/Private/Schema/Views.schema.yaml

    ./flow configuration:validate --type Views
    Validating Views configuration

    Error:
      The schema file
      ".../Packages/Framework/TYPO3.Flow/Resources/Private/Schema/Views.schema.yaml" is empty.

IMHO FLOW should not throw any warning within the base packages ...
